We feel at this is when suggestions and recommendations for the JHSC will be provided.</p>

Causing issues with receiving and pallet building and safety issues upon arrival at other warehouses. Anita has taken pictures which have been provided to Purchasing to investigate. RECOMMENDATIONS TO SANMAR CANADA:	<p><u>New Warehouse Member of the JHSC</u></p> <p>6/24 Currently we do not have a WH Employee Representative on the JHSC. We recommend nominations begin to rectify this. We wish to have the new Representative in place by next meeting.</p> <p><u>Review current Lock-Down Policy</u></p> <p>6/24 June 11th an incident occurred at the WH when a non-customer/non-employee confronted warehouse employees. No injuries occurred and a police report was filed. We are requesting the review of the current lock-down policy to ensure it covers an incident of this sort. The worry is, what should Sanmar Canada employees do if an incident like this escalates to threat of physical violence.</p> <p><u>Emergency Exit Procedure Instructions</u></p> <p>6/24 Currently these instructions are only located in one place, by Reception. We recommend that these instructions also be placed in the WH or the Lunchroom.</p>
